## Annual Management Report of Fund Performance

### As at September 30, 2021

This Annual Management Report of Fund Performance contains financial highlights but does not contain either semi-annual or annual financial statements of the investment fund. You can obtain a copy of the semi-annual or annual financial statements at your request, and at no cost, by calling 1-888-809-3333, by writing us at Northwest & Ethical Investments L.P., 151 Yonge Street Suite 1200, Toronto, ON M5C 2W7 or by visiting our website at [www.neiinvestments.com](http://www.neiinvestments.com) or SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## Management Discussion of Performance

### Investment Objective and Strategies

The Fund's investment objective is to provide a high level of current income while maintaining security of capital. The Fund invests primarily in a diversified portfolio of high-yield, higher risk, global corporate bonds and notes and may also invest in other fixed income investments with similar characteristics. Most of the investments will be rated "BBB-" and below by Standard and Poor's or Fitch, and "Baa3" or below by Moody's or an equivalent rating by another recognized bond rating service. The Fund may also invest in investments that are not rated, investments that are in default at the time of purchase, and may invest in investments denominated in emerging market countries' currencies.

It is expected that, except for temporary defensive purposes, the Fund will invest at least 80% of its net assets in high-yielding, income-producing corporate bonds.

The Fund follows a responsible approach to investing as described in Part A of the Simplified Prospectus.

### Risk

The risks of investing in the Fund remain as discussed in the Simplified Prospectus. The Fund is suitable for investors investing for the medium term, with a low to medium tolerance for risk. Any changes in the Fund have not affected the overall level of risk of the Fund.

### Results of Operations

The NEI Global High Yield Bond Fund's Series A units returned 8.5% for the twelve months ended September 30, 2021 compared with a return of 11.1% for the benchmark explained below.

Unlike the benchmark return, the Fund's returns are after the deduction of fees and expenses paid by the Fund. Performance differences between series of units are mainly attributable to management fees charged to each series. Refer to the Past Performance section for the details of returns by series.

The benchmark for this Fund is the Bloomberg Barclays US High Yield 2% Issuer Cap Index (C\$ hedged).

The Fund's net asset value increased by 13.91% during the period, from \$253,446,767 as at September 30, 2020 to \$288,713,873 as at September 30, 2021. This change in net assets is attributed to net unitholder activity of \$10,060,694 and \$25,206,412 to investment operations, including market appreciation (depreciation), income and expenses.

## Factors That Have Affected Performance

High yield spreads have tightened this year as a response to the market volatility surround COVID-19, inflationary pressures, and fiscal negotiations in the US. Nonetheless, high yield has remained one of the strongest performing asset classes in fixed income.

Default activity continues to be very low this summer with no defaults occurring during September. That said, Q3/2021 marks the lowest default volume since 2013 and this year is on pace to be the lightest calendar year for defaults since 2007. Moody's global 12-month trailing default rate has declined dramatically over the last few months with the current rate at 3.0%.

Security selection negatively impacted returns due to the underperformance from an overweight to Community Health Systems, underweights to Transocean, Newfield Exploration Co, Apache, American Airlines, and positioning within the capital structure of Community Health Systems. This was somewhat offset by the outperformance from overweights to Oasis Petroleum, EP Energy Corp, Ahern Rentals, Navios Maritime Acquisition Corp, Navios Maritime Holdings, and positioning within the capital structure of Oasis Petroleum. Sector allocation underperformed due to an underweight to Energy, and an overweight to Insurance. However, this was somewhat offset due to underweights to Electric and Communications.

## Recent Developments

High yield bonds continue to deliver positive returns as investors weigh accelerating growth and what is expected to be significantly better credit fundamentals against a rise in inflation. Access to capital continues to be wide open as issuance hovers around record levels, which has allowed most issuers to raise needed capital, either to weather the continued economic downturn or to refinance at record low yields to improve cashflow and ultimately improve their balance sheet. These improvements help give confidence in the portfolio sub-advisor's default forecast and gives justification for their thesis that returns, albeit lower than historical levels, will still reward investors in a world that is starved for yield. They will continue to be shorter in duration and will selectively look to add to BB's that have underperformed during 2021. However, regarding quality, B-rated bonds still offer the best risk adjusted returns. CCC's have done amazingly well, and that trend may continue unless the market takes a dramatic turn against risk assets.

### Investment Objective Changes

Northwest & Ethical Investments L.P., as Manager of the Fund, held special meetings of unitholders of the NEI Global High Yield Bond Fund on March 9, 2021 and obtained the requisite unitholder approvals to implement changes to the fundamental investment objectives of the Fund effective at the close of business on April 16, 2021.

### Independent Review Committee

The term of William Woods ended on September 30, 2021. Mr. Woods had served with distinction on the Independent Review Committee ("IRC") since October 2015. After consulting with the Manager and obtaining the Manager's consent, the IRC re-appointed Mr. Woods for a further period of three years.

## Related Party Transactions

Northwest & Ethical Investments L.P. ("NEI LP") is the Manager, Trustee, Portfolio Manager and Registrar of the Fund. Northwest & Ethical Investments Inc., the general partner of NEI LP, is a wholly-owned subsidiary of Aviso Wealth Inc. ("Aviso"). Aviso is also the sole limited partner of NEI LP. Aviso is a wholly-owned subsidiary of Aviso Wealth LP, which in turn is owned 50% by Desjardins Financial Holding Inc. and 50% by a limited partnership owned by the five Provincial Credit Union Centrals and the CUMIS Group Limited. Desjardins Financial Holding Inc. is a wholly-owned subsidiary of the Fédération des caisses Desjardins du Québec ("Fédération").

# NEI Global High Yield Bond Fund

NEI LP charges the Fund a fixed administration fee in place of certain variable expenses. NEI LP in turn, pays all operating expenses of the Fund, other than specified fund costs (e.g. the fees and expense of the Independent Review Committee, taxes, and brokerage commissions) which include payments to related parties. These services are in the normal course of operations and are measured at an exchange amount that is consistent with other independent parties. Desjardins Trust Inc. ("Desjardins Trust") is the custodian of the Fund. Desjardins Trust is a wholly-owned subsidiary of the Fédération. The Fund may engage in securities lending and repurchase transactions, and Desjardins Trust may act as the Fund's securities lending and repurchase transactions agent ("Agent"). Any revenue earned on such transactions is split 60%—40% between the Fund and the Agent. Desjardins Securities Inc. ("DSI") is a broker responsible for security transactions on behalf of the Fund. DSI is wholly-owned subsidiary of the Fédération.

The Fund's sub-advisors may place a portion of their fund transactions with brokerage firms which are affiliates of NEI LP, provided that the affiliate's trade execution abilities and costs are comparable to those of non-affiliated qualified brokerage firms.

The Fund is distributed through Credential Asset Management Inc., Credential Qtrade Securities Inc., and members of the Desjardins group and other nonrelated parties by way of shared ownership. NEI LP pays to these parties distribution and servicing fees based on a percentage of the daily values of the units of each held by the dealer's clients and additionally, in some cases, on the amount of initial purchase.

NEI LP has established the IRC for the Fund in accordance with the requirements of National Instrument 81-107 – Independent Review Committee for Investment Funds in order to review conflicts of interest as they relate to investment fund management. The Fund did not rely on an approval, positive recommendation or standing instruction from the Fund's IRC with respect to any related party transactions.

(1) All per unit figures presented in 2021 are referenced to net assets determined in accordance with IFRS and are derived from the Fund's audited annual financial statements for the period ended September 30, 2021.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

(3) Distributions were paid in cash or reinvested in additional units of the Fund.

(4) Distributions (if any) that may have been made that included return of capital in excess of short term earnings were made to minimize disruption and provide stability to investors who have elected to take their distributions in the form of cash, and as disclosed in the Simplified Prospectus. These amounts are reviewed at each calendar year-end and management engages in discussions with the sub-advisor to determine the most applicable strategy on a go forward basis and will take any action(s) as needed for the long term stability of the Fund.

(5) Effective January 18, 2019 Series T has been discontinued and all assets have been merged into Series A.

(1) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs, as well as withholding taxes) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

(2) The trading expense ratio represents total commissions and other Fund transaction costs expressed as an annualized percentage of daily average net asset value during the period.

(3) The portfolio turnover rate indicates how actively the Fund's sub-advisor manages its investment holdings. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

(4) Effective January 18, 2019 Series T has been discontinued and all assets have been merged into Series A.

## Management Fees

The Manager is responsible for the management, supervision and administration of the Fund. The Manager receives from the Fund management fees, before HST, calculated daily on the net asset value of the Fund at an annual rate shown below. The Fund does not pay management fees for Series I and O units. Series I and O unitholders pay a negotiated fee directly to NEI Investments.

The management fee covers the cost of investment advisory fees, sales, marketing, and distribution expenses of the Fund. In addition, the Manager may pay a trailer fee to dealers out of this management fee. The trailer fee is a percentage of the average daily value of the units of the Fund held by the dealer's clients. No trailer fees are paid in respect of any Series F and PF units of the Fund.

The following table shows the major services paid for out of management fees as a percentage of the management fee for all applicable series of the Fund:

	Management Fee (%)	Investment Advisory and Other Fees (%)	Trailer Fee (%)
Series A	1.50	61.99	38.01
Series F	0.75	100.00	N/A
Series P	1.25	40.04	59.96
Series PF	0.50	100.00	N/A

## Past Performance

The performance information provided will not necessarily indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the periods shown were reinvested in additional units of the relevant series of the Fund. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

### Year-by-Year Returns

The following charts show the annual performance for each series of units of the Fund for each period shown and illustrate how the Fund's performance has varied from period to period. The charts indicate how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period.

**Series A**

**Series F**

**Series I**

**Series O**

**Series P**

**Series PF**

There was an investment objective change effective April 16, 2021. Performance for the periods before and after this change could have differed had the change not occurred or occurred at a different date.

## Annualized Compound Returns

The following table shows the annual compound returns for all series of the Fund. All returns are in Canadian dollars, on a total return basis, net of fees. For comparison, the returns for the benchmark are included. A discussion regarding the relative performance of the Fund is found in the Results of Operations section of this report and a description of indexes can be found in the Annualized Compound Returns section of this report.

The benchmark for this Fund is the Bloomberg Barclays US High Yield 2% Issuer Cap Index (C\$ hedged).

The Bloomberg Barclays US HY 2% Issuer Cap Index is an issuer-constrained version of the flagship US Corporate High Yield Index, which measures the USD-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch and S&P is Ba1/BB+/BB+ or below. Bonds from issuers with an emerging markets country of risk, based on the indices' EM country definition, is excluded. This is a Canadian dollar hedged index.

While the Fund uses this benchmark for long-term performance comparisons, it is not managed relative to the composition of the Index. As a result, the Fund may experience periods when its performance is not aligned with the Index, either positively or negatively. Please see the "Results of Operations" section of this report for a discussion of recent performance results.
